3.125 (a)

FACILITIES, GENERAL.

Sec. 3.125 Facilities, general.
(a) Structural strength. The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.
****The underground wire in the hyena,porcupine and some big cat enclosures is exposed due to digging by the animals contain within the enclosure.
****The exposed wire mesh can result in the animal getting injured if the limbs get trapped in the wire
****Facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.
****To be corrected by 10-20-2011.

3.131 (c)

SANITATION.

Sec. 3.131 Sanitation.
(c) Housekeeping. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart.
****There is various amounts of discarded construction material scattered around the premises where the enclosures are located.
****Accumulation of construction material can harbor pest which may result in disease transmission to the animals and health problems.
****Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals.
****To be corrected by 10-20-2011

****An exit briefing was conducted with the director on 9-20-2011.
